- Utilising Census 2011 data to create visualisations using Python.
- Creating presentations on MS-PowerPoint and Canva.
- Consolidating the working of different products into pitches for different projects.

ACADEMIC HISTORY

NIIT University, Neemrana,

BTECH. IN COMPUTER SCIENCE ENGINEERING

2018- Ongoing

Sushila Birla Girls' School, Kolkata.

ALL INDIA SENIOR SCHOOL CERTIFICATE EXAMINATION (AISSCE)

2016-2018

Our Lady Queen of the Missions, Kolkata.

INDIAN CERTIFICATE OF SECONDARY EDUCATION (ICSE).

2016-2018

PROJECTS:

Anomaly Detection In High Dimensional Data

A Research and Development Project that analyzes several outlier detection algorithm and focuses on the Isolation Forest algorithm.

A Cluster-Based Isolation Forest (CBIF) algorithm is proposed to overcome the drawbacks of the iForest algorithm.

skribe - A Flask-based Blogging Platform

A blogging web application which would allow writers to publish articles on their subdomain. The application utilises the Python's Flask framework and SQLite as the database.

Data Exploration - Covid Deaths

An EDA project using SQL on the Covid Deaths dataset from ourworldindata.org. The SQL queries are used to visualise the findings on a dashboard with Tableau Public.
